MALIGNA PRESENTS ITS NEW RELEASE: ON | AX BY A-RP

In monster metropolis Mexico City few producers achieve a distinct and fresh sound like A-rp has with his debut EP on MALIGNA. With *ON / AX* and its dense basslines, warped vocals and dark synths, A-rp creates dance music for the not too distant post-apocalyptic future. Dystopian club music is now. *ON / AX* is a step towards the future in MALIGNA's agenda.

ON / AX is available now on limited edition cassette on Bandcamp and digitally on Bandcamp, iTunes, Google Play, Amazon and the best music streaming services.

Maligna will be hosting a listening party at La Roma Records in Mexico City on September 16th.

ABOUT A-RP

A-rp is Daniel's personal redefinition after four years of research and experimentation with different genres, using techno as the main thread to explore technical, emotional and psychological concerns in a process of self discovery. A-rp's music production makes hypnotic landscapes by playing with aggressive timbres, and rhythms that both persevere and deconstruct, joined by voices that seem to whisper from beyond; trance inducing music for dancefloors.

Daniel's work, visually and musically, aims to be stylistically undefined where the goal is a thrill, an experience that effects the audience's perception. He's been part of Mexico City's electronic music scene for 15 years, working with labels like KNFRT RECS and Extasis records.

ABOUT MALIGNA

MALIGNA is an independent record label from Mexico City founded in 2012 as a spin-off from the now defunct Negative Youth collective. Focused exclusively on electronic music, releases on CD, cassette and digitally. Since it started, MALIGNA stands out in Mexico as a label willing to take risks betting on music with a futuristic sound and vision. Roster includes AAAA, Ritualz, HDXD, Teehn Bwitches, and Occultdanse, among others.
